PEGAMI

CONSULTING LIMITED

THE NEW SPIRIT OF LEADERSHIP

A word from Consultant Associate

The passion for adventure towards the uncertainty of hydrocarbon and mining industry is a daily motivation for us. Indeed, our activities are essentially in the fields of oil, gas, and mining and similar services.

We have taken up the challenge of becoming a sub-regional onshore and offshore consulting services company that puts people, society and the environment at the heart of its business development.

PEGAMI CONSULTING LIMITED

We help to provide innovative and economically viable solutions to conventional non-viable developments.

Specialized in specific services, we offer our clients our know-how to help them from the design to the realization of projects, offering services, equipment and a highly experienced and qualified workforce. Thus, through this variety of services, PEGAMI is positioned as your unique and dedicated contact, special in its field of activity and centralizing different technical and operational skills, for a better design and implementation in the following areas in:

- Studies and support for the realization of projects
- Guidance and support for the implementation and monitoring of organizational procedures and policies
- Orientation and support for the implementation of technical and operational solutions
- Guidance and support for supply, logistics and stock management operations
- Guidance and support for environmental impact studies and QHSE
- Orientation and support for the creation of websites, maintenance, creation of graphic charters as well as services related to the promotion of the interventions of the various customers.
- Audit, orientation and training support
